

April 28, 2026

Dear Mr. Ibarra,

This letter is your Explanation of Benefits for your recent laboratory service. We have processed your claim and want to inform you of the decision regarding your visit to Granite Bay Laboratory on April 15, 2026.

You received a Vitamin D screening test on April 15, 2026, at Granite Bay Laboratory. The billed amount for this service was \$89.50.

After careful review of your claim, Cascadia Health Plan has determined that this service does not meet our medical necessity requirements for coverage. Your claim has been denied under denial code CO-50, which indicates that the service was not medically necessary, with remark code N386 further explaining that the screening did not meet clinical guidelines for your current health status. As a result, Cascadia Health Plan will not be providing payment for this service.

Because this claim has been denied in full, you are responsible for the entire billed amount of \$89.50. This amount is now your financial obligation to Granite Bay Laboratory. Please contact the provider directly if you wish to discuss payment options or arrange a payment plan.

If you believe this denial is incorrect or if you have questions about your coverage for preventive screenings, please contact our Customer Service Department at 1-800-555-0147. Our representatives are available Monday through Friday, 8:00 a.m. to 6:00 p.m. Pacific Time. You may also submit a formal appeal of this decision within 180 days of receiving this notice.

Sincerely,

Cascadia Health Plan
Member Services Department
